German Planes Roar Back To Attack England

Claim Heavy Damage At
Manchester And Liver-
pool Port Facilities

Berlin, Oct. 2.—(P)—A great fire and explosion was caused by German warplane attacks on Manchester and heavy bombs were dropped on an armament plant north of London and a nearby airport used largely for night fighting, the German high command announced today.

The daily communiqué emphasized that fighting planes were being used widely for bombing raids, crediting surprise attacks by single planes with success north of London and lauding the exploits of a fighting unit led by group commander Major Hahn.

This unit, it said, carried out an audacious dive attack on an airport at Crew, a suburb of Pembroke, in Wales, scoring hits with large bombs on hangars and damaging a number of planes.

Liverpool's port facilities also were reported attacked.

Following up the offensive of yesterday and last night, German planes roared back to the attack on England early today, taking advantage of fine October weather, informed sources in Berlin said.

Big Scale Operations could be expected during the day, they declared.

Britain's air losses through yesterday were put at 17 planes, while two German machines were reported missing.

Germany recently has developed special tactics for combating air raiders at night, the high command declared. These were said to be a new technique by "night chasers," as the Germans call their fighting planes operating defensively at night, and a new type of artillery defense.

Details were not announced, but the high command reported the tactics were so successful that "nearly everywhere the foe was hindered from carrying out his raiding plans."

Last night British bombers caused damage by fire to "numerous" apartment houses in western German cities. One group was turned back from Berlin by Anti-aircraft fire, said the high command, adding that the only damage in the capital was caused by incendiary and explosive bombs dropped on a brick yard in a suburban area.

Bloomington, Ind.—(P)—One in every three students at Indiana university earns at least part of his expenses. Mary N. Crawford of the economics department questioned 981 undergraduates. She found women's expenses averaged \$682.70, men's \$621.07.

HIT-AND-RUN EARTHQUAKE

Beimont, Cal.—(INS)—Beimont firemen are busily tracking down a hit-and-run earthquake with an apparent grudge against their firehouse.

Twice in recent weeks "quickie" quakes have jolted the fire station for brief intervals, although they were not felt elsewhere in town and were not recorded on seismographs in the area.

NEW MEDICINE BOTTLE

New York—(INS)—Companion piece of the new milk bottle that won't drip, thus ending the era of sticky sides and shelves that made old-fashioned medicine bottles so unattractive. The new bottle is equipped with a special lip that returns the drip to the bottle instead of permitting it to run down the sides.

TRANSLUCENT WALLS

New York—(INS)—Translucent walls, which pass light, but are not transparent, are being used to flood gloomy, dark rooms with outside light. The new walls are constructed of hollow glass insulux blocks, which also insulate against heat and cold. The new walls may enclose an entire room, or an entire house.

HELP WANTED

New York—(INS)—One and a quarter million skilled mechanics, tool and die makers, and tool engineers in addition to those already employed are needed to take care of immediate needs for and definitely planned expansions during the balance of 1940, according to the American Society of Tool Engineers.

WILLS HIS TOOLS

Salem, Mass.—(INS)—A photographer willed the tools of his trade to a young man who would appreciate them and make good use of them. Willard B. Jackson, Marblehead photographer, signed the will September 16, 1937, and died August 29, last.

SLIGHT DELAY, THAT'S ALL

Havana—(INS)—The mayor of Holguin has complained to the Department of Interior that the Chaparral Light and Power company has threatened to discontinue service to the municipality. The message added there was no reason for the act because the city owes the company only for seven months of service.

CANDIDATES "BROTHERS"

Des Moines, Ia.—(INS)—Iowa's rival candidates for governor are fraternity brothers. Both Gov. George A. Wilson, Republican, and

John Valentine, Democrat, are members of Sigma Chi fraternity.

UNFORTUNATE CATCH

Camaguey, Cuba—(INS)—Severino Consuegra, 30, hooked a big fish in the Sagua la Grande river near here, lost his balance when he tried to land him, fell in and was drowned.

CAT HERO HAS OFFSPRING

Auckland—(INS)—Tissy, cat mascot of H. M. S. Achilles, who received an unofficial order of Feline Bravery for taking part in the battle against the Graf Spee, has given birth to 3 kittens. The event took place in Commodore Parry's cabin, and the kittens have been named Achilles, Exeter and Ajax.

LEGISLATURE ENLARGED

Havana—(INS)—An appropriation of \$10,000 to provide additional seats in the senate and lower house has

been approved by President Federico Laredo Bru. Under the new constitution, membership in the house has been increased from 36 to 40, while membership in the senate representatives has been increased from 162 to 243.

BEES WIN OUT

Wilmington, Del.—(INS)—A team of bees holds a technical victory over Robert Silvers of Wilmington. Attempting to prevent the bees from hiving in the rafters of his house, Silvers used a burning mop on the end of a clothesline. The bees caught fire and the fire companies were called out. When the smoke-eaters finally returned to the same place,
